

Statutory Consultation on the increase in places and change of age range to include sixth form provision at Kingfisher School

Kingfisher School is proposing to increase the number of places it can offer from 91 to 140 from September 2021. The school is also proposing that it changes the age range of the school to include a post 16 provision. This change will mean we can provide education for 50 more pupils and support our pupils until they reach 18.

The four-week consultation period will run **from Monday 28th June 2021 and will close no later than noon on Monday 26 July 2021.**

Details of the proposal and response form can be found on the school website. Responses must be made in writing by the closing date of the representation period.
